## LET US HELP!

Huron Pines wants to work with landowners to protect lakeshore and riverfront properties! With funding through the National Fish and Wildlife Foundation-Sustain Our Great Lakes program, we would like provide you with a native greenbelt package that is easy to install and includes an easy to follow planting guide. Protect your property, provide for wildlife and keep water clean!

- Huron Pines' Project NATIVE is able to offer already started native greenbelt perennials, shrubs and pollinator grass seed for **60% off the original cost!**
- Our 100 linear foot packages cover 600sqft.- Huron Pines can offer these at ONLY \$100 (Retails for over \$275.00)!

## IT'S MORE THAN YOU THINK:

- Reduce the risk of property loss from erosion by stabilizing streambank, riverbank and lake front properties.
- Protect water quality by preventing runoff pollution.
- Promote shoreline habitat for birds, turtles, butterflies and other native animals.
- Become a partner in strengthening and sustaining Northeast Michigan's unique ecosystems!
