

2020 Douglas Lake Boat Assist Team

The Douglas Lake Boat Volunteer Boat Assist Team consists of residents of DL, who have volunteered to assist boaters who are stranded on the lake due to a malfunctioning boat or motor. The volunteers are not professional boat mechanics but are willing to lend a hand and get you to shore.

Team members live in several areas around the lake. If you need assistance, please call a volunteer living near the area where you are stranded. Describe the type of problem you are experiencing, your location, the type and color of your boat and how many people are on board.
